Network grant

We are currently offering Network grant renewals to invited grantees only. You will be contacted by AmplifyChange if you are eligible with a letter of invitation to apply.

Network grants offer significant support to networks and coalitions to encourage movement building. They facilitate connections between like-minded organisations to strengthen and coordinate their impact. They enable diverse organisations to work in cohesion to achieve sustained improvements in sexual and reproductive health and rights (SRHR).

Network grants are valued from EUR150,000 to EUR550,000 over 24 months. They can support action at a national level, international level or sub-national level in larger federalised countries.

Please see the specific eligibility criteria listed in the sections below for each Network grant call.

Rules and eligibility

The annual value of a Network grant cannot exceed 50% of the lead organisation's average annual expenditure over the past three years. Applications from coalitions and consortiums are encouraged, with a designated lead organisation that would hold a grant agreement with AmplifyChange.

International non-governmental organisations are not eligible to lead a Network grant application.

What are we looking for?

Network grants address one or more of the five AmplifyChange priority themes. They strengthen movements and deliver more effective campaigns for SRHR through:

- **Inclusion:** strengthening coordination across like-minded organisations and engaging a wider supporter base
- **Strengthening:** measurably improving the capacity and leadership of emerging civil society organisations
- **Learning:** facilitating learning about effective SRHR advocacy across organisations
- **Evidence:** supporting evidence-generation by advocates from civil society

We encourage applications from coalitions and consortiums of non-governmental organisations.

Application process

We run a two-step process to identify network grantees – consisting of a concept note phase, followed by an invitation to submit a full application for shortlisted entries.

Requests for Network grant proposals are posted four to six weeks in advance of the opening date for submission of applications. Applicants generally have four weeks to complete their concept note and a further four weeks to complete full applications after we have shortlisted concept notes.

All applications must be submitted online using our online application system. You need to complete a narrative describing your project using the online form. You will also need to upload a budget, workplan and definition of milestones against the AmplifyChange indicator framework using the most up-to-date AmplifyChange templates. These templates can be downloaded from the online application system.
